

BLACKROD PRIMARY SCHOOL

Project Reflection – Autumn 1

Continents and Oceans/Countries in the UK

Continents and Oceans/Countries in the UK

The children used world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans of the world.

The children then continued to develop their understanding by naming and locating the world's oceans. We also discovered and explored the seas/oceans that surround the UK itself.

BLACKROD PRIMARY SCHOOL

We live here In England!

We completed lots of fun activities to learn the different continents of the world. We made them out of playdough, made jigsaws and coloured the continents in different colours on a world map.

We loved singing the continents and oceans song to help us remember!

We found out that there are 4 countries in the UK, we located these on our UK map in class and in atlases

Did You Know?
 Asia is the largest continent in the world.
 Africa is the hottest continent.
 The smallest ocean in the world is the Indian Ocean.
 Northern Ireland is actually part of the UK.
 The English channel is underneath England.
