

BLACKROD PRIMARY SCHOOL

Autumn Project Reflections

Computing – Digital Citizenship

We learnt about our digital footprint and looked at what different online activities we access at home

We loved watching the different Jessie and Friends clips exploring how to keep safe online.

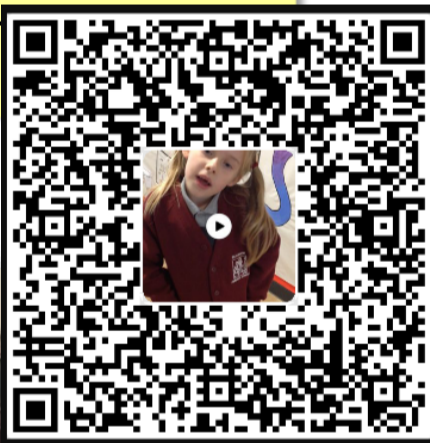

We learnt the 'Funny Tummy Song' - the children know that if they see something online that they don't think looks right to tell someone they trust: Their family, an older friend or a teacher.

Who do we tell if we get the butterfly feeling?

I will tell my dad.

How would you feel if you didn't tell this person?

I would ~~be~~ feel scared because I don't deserve it

We loved logging on and accessing the computers in the computer suite!

Key Vocabulary

Online safety - staying safe online

Personal Information - Information about you that you wouldn't want strangers knowing

Password - a secret word or phrase used to access a computer
